Testing of Animal Pathogens & Veterinary Biologics

This function is for registration of applications for Testing of Animal Pathogens & Veterinary Biologics.

Pre-Requisites

- Singapore Residents can login to NParks Inspection & Laboratory e-Services using your SingPass ID.
- For Non Singapore Residents, you need to apply for an account to login to NParks Inspection & Laboratory e-Services.
- The administrator of the company must assign your SingPass ID / personal account as an authorised representative in order to perform transaction for his/her company.

How to Create and Submit Application for Environment and Miscellaneous Specimens

Select Application Form for Environment and Miscellaneous

1. Go to **Online Application → Laboratory Services** on the navigation menu bar. The following screen display will be displayed.

Figure 1: Laboratory Services Selection

2. This screen allows you to apply for a service as an individual or on behalf of the company.
 - To register for service as an individual, select **Myself**.
 - To register for service as an authorised representative from a company, select **Authorised Company** and select the company name from the dropdown list.
 - Select the **Type of Service** required.
 - Select the **Type of Application** from the dropdown list.
 - Click on **Register New Application** and the following screen will be displayed.

Figure 2: Testing of Animal Pathogens & Veterinary Biologics Screen

3. All the information about the applicant as shown on the top section is retrieved from your user and/or company profile upon loading the screen.

Completing the Application Form

To begin registration, fill in or select the correct information in the relevant sections/tabs of the form.

Figure 5: Samples & Tests

1. Fill in the information accordingly. Fields marked with * are mandatory.

How to Add Test(s)

1. Select the check box at the end of each sample row to add test(s) for the corresponding specimen/samples.
2. Click on **Assign Tests**.

The screenshot shows the 'Samples & Tests' interface. At the top, there is a 'Specimen Listing' table with the following columns: S/II, Sample Marking, 1. Species*, 2. Breed, 3. Specimen Description, No. of Samples, Test(s), and a checkbox. The first row has '1' in the S/II column, a text input field for Sample Marking, and three dropdown menus for Species, Breed, and Specimen Description. The checkbox in the Test(s) column is checked and circled in red. Below the table, there are several buttons: 'Assign Tests' (circled in red), 'Add Sample', 'Delete Sample', 'Replicate Sample', and a 'Replicate' field with the value '0' and the unit '(times)'.

Figure 6: Samples & Tests – Add Test(s) to Sample

The screenshot shows the 'Assign Tests' popup window. It has a title bar 'Assign Tests' and a header 'Examination/Diagnostic Tests'. Below this, there are five checkboxes: 'Routine aerobic bacterial culture', 'Total bacterial count', 'Total Coliform Count', 'Total Faecal coliform count', and 'Total Escherichia coli count'. Below these is an 'Other Tests' section. At the bottom right, there is a button 'Assign Selected Tests'. Below the main content, there is a 'Search for Other Tests' section with a 'Laboratory' dropdown menu set to '-- All --', a 'Test Description' text input field, and a 'Search' button.

Figure 7: Assign Tests Popup Window

3. Select the type of examination/diagnostics tests required
4. Click on **Assign Selected Tests** if there are no other tests required, else search for other types of tests if required.
5. Enter the test description. You may use “%” as the wildcard if you do not know the exact description.
6. Click **Search**. Tests that meet the selection criteria will be displayed as shown.
